

# SELF-SERVICE SOLUTIONS

## CXC 5.0 & CXC 5.0 L

Everi's newest full service kiosks CXC 5.0 L and CXC 5.0 are redesigned with the casino in mind! Sleek new devices offer casinos additional opportunities for casino marketing while providing state of the art privacy features to ensure secure transactions. Designed for smaller volume properties, the CXC 5.0 L offers similar services as the CXC 5.0 with a smaller footprint, and a lower cost.

With full integration with other Everi FinTech products, such as CashClub DCCA/CCCA, Everi Compliance®, and the robust CashClub® Wallet, these new kiosks give properties an opportunity to move cage based transactions to the casino floor while still providing traditional functionality like ATM, ticket redemption and bill breaking.
